I concur with Mr. Baker. I have no issue with Ms. Vickers attending meetings.

I sent this email to the chairs and the secretary this afternoon. I have decided it's worth sharing with everyone:

I didn't get to bring it up, but this has been really eating at me. If Selina Vickers isn't taking notes during the informal meetings, why is she there? She isn't a voting member and she has no say in what actions the AAC takes. This seems to be an overreach of her duties and dilutes voting members say. I would like to know more about these "workshops" from one of you.
